

# EON Ibox™

High Fidelity 3D Stereo and Augmented Reality

## What is EON Ibox™?

EON Ibox allows users to create photo realistic 3D images, 3D pictures/videos or real-time 3D simulations with a fast and easy work-flow. EON Ibox™ can also be used in an Augmented Reality mode with a live video feed overlaid with an interactive 3D object that a remote user can control.

EON Ibox is a system for use in product presentations, design, training and support. The system includes EON software for efficient import, optimization and scenario creation for 3D. EON Ibox is an immersive stereoscopic turnkey display solution that uses an EON exclusive integrated hardware solution only available through EON Reality. The system allows intuitive, real-time interaction with realistic 3D imagery that is responsive to the user's actions and can display multiple objects or a full Virtual Reality environment. The system includes software that enables easy conversion of 3D data and interactivity creation, it supports CAD and 3D models as well as film and image stereoscopy.

EON Ibox Projection has amazed both clients and audiences not only with the uniqueness of the EON Ibox system, with the simplicity, practicality and easy set-up. More importantly, a whole event can be digitally produced, the system offers clients a fool-proof simple to use system. Think of it as a hassle-free system that offers a unique and amazing event or product presentation experience.

## Key Features

- **Stunning 3D** appearing computer generated and video objects
- **Simple single view set-up**
- **Passive stereo glasses** allow for stunningly clear and comfortable 3D viewing
- Optional **true HD** Codec and Camera for Augmented Reality use
- Objects in picture appear to **float in space**
- **Utilized for marketing** and as a powerful presentation display
- Available in **19" up to 40"** diagonal display size
- **High brightness and contrast** for use in any ambient light environments

# EON Ibox™

A Unique 3D Solution

## Why use EON Ibox™?

EON Ibox is revolutionizing the immersive 3D interaction experience with its ease of use and flexibility.

EON Ibox brings the world to you in-depth as smart interactive objects appear to float in space, without any hassles with alignment or set-up - pushing the boundaries of digital experience closer to reality.

EON Ibox has been utilized around the globe for marketing events, campaigns, product launches and conferences.
